

ALBANIAN UNIVERSITY

ANNUAL REPORT

2017-2018

INTRODUCTION

Albanian University is one of the first private universities opened in the Republic of Albania with Decision of Council of Ministers, No. 197, dated 10.04.2004 and for more than a decade that it operates with some Main Units.

Albanian University provides a wide series of study programs accredited in 3 study cycles such as: bachelor, master and long-term specialisations in the branch of dentistry and PHD in different study branches such as dentistry, pharmacy, nursing and physiotherapy, engineering, economic and social sciences. All the study programs are drafted and carried out in accordance with the legal and sub-legal acts in force, accomplishing the state standards concerning quality. The academic staff with scientific degrees, several teaching experience and continuous qualifications in and out of the country as well as the provided contemporary infrastructure are strong foundations in accomplishing Albanian University's mission, in preparing the students with the adequate skills and qualities in order to be in accordance with the globalisation and internationalisation's requirements.

Albanian University has achieved the institutional accreditation successfully by being evaluated positively from the Quality Assurance Agency in Higher Education in Albania in collaboration with British Quality Assurance Agency, provided with Decision of Board Accreditation no.90, dated 20.10.2017.

Below are provided data for the Institution of Higher Education "Albanian University" in accordance with Guideline no. 5 dated 19.02.2018 On Establishing the composing elements of the annual report and deadline for the Higher Education institutions reporting"

Content

A. Academic Senate	6
<i>a. Information on the realization of the aims and objectives of teaching, scientific research and creative activities and innovation. Teaching, learning and research evaluation reports. The report specifies the responsible structures and deadlines for these accomplishments with reference to the long- and short-term strategic plan of HEIs,</i>	6
<i>b. Information on inter-institutional cooperation and projects involving HEI, where data on the cooperative institution or project are presented; on the contract, date and form of formalization of the cooperation or project; field of cooperation; the duties of the parties and the products, outcomes or benefits expected from this cooperation</i>	6
<i>c. Information on HEI scientific research or on projects in which it participates as an active party, which includes:</i>	19
i) scientific research policies.....	19
ii) data on the relation between scientific research with teaching	21
iii) Products in the field of scientific research presented in the form of scientific publications, articles, projects granted or realised, participations in activities in and out of the country, scientific activities organised by the main unit, collaboration with other institutional domestic institutions, national or international ones with data on date, place and participants	Error! Bookmark not defined.
I. Faculty of Social Sciences	21
II. Faculty of Applied and Economic Sciences.....	30
III. Faculty of Medical Sciences	40
Collaboration agreements for the year 2017-2018	48
iv) <i>Data on infrastructure supporting the scientific research</i>	51
d. Data on the study programs	54
i) <i>HEI informs on all the study programs it provides, including those interdisciplinary and joint ones if any. The report presents the study programs that are active, suspended, closed, for which it is taken permission for its opening, but it is not active</i>	54
ii) <i>HEI informs on the permission for study program opening which is under evaluation process, as well as programs that provide continued training for third parties or for their professional development of the staff. These data are accompanied with the number and date of the opening act or closing of the study</i>	Error! Bookmark not defined.

- iii) *HEI reflects in the annual report the compatibility of the study programs with the institution's mission, their achievement of the study program aims from the content and in relation of study program importance starting from the needs evaluation for skills in labor market* **Error! Bookmark not defined.**
- e. The changes in the HEI statute or regulation, as well as provided by the Internal Quality Assurance Unit. **Error! Bookmark not defined.**
- f. Forecasting the academic staff engagement, the respective workload, subject/s, adn/or module/s that will provide each of them for each semester of the academic year..**Error! Bookmark not defined.**
- g. Data for tracking the students that completed studies for each program that HEI provide, accompanied with information source and address in which information is confirmed, specifying: : **Error! Bookmark not defined.**
- i) The percentage of graduated employment, if the institution declared that the provided programs prepare for a career or a specific profession; **Error! Bookmark not defined.**
- ii) The percentage of graduated that pass the state exam and are licensed, when the study program is related is related to a regulated profession **Error! Bookmark not defined.**
- h. Data for the student council and their representatives in the HEI directing bodies and in the Internal Quality Assurance Unit **Error! Bookmark not defined.**
- i. HEI evaluations and possible recommendations for ministry, as well as a discription of HEI interactivity with structures depending on ministry, including also:**Error! Bookmark not defined.**
- i) a general assessment of the communication between the ministry and institutions depending on her, highlighting the possible improvements in this communication; **Error! Bookmark not defined.**
- ii) evaluation and recommendations for system changes or legal and sub legal acts in force that affect the HEI activity, accompanied with detailed justifications.**Error! Bookmark not defined.**
- j. *Data for the students as:*.....78
- i) *the general number of registered and graduated students according to the levels and study programs;*..... **Error! Bookmark not defined.**
- ii) *the number of stdudents that attend the programs that are a national priority, defined in the priorities documents approved and published every year by the ministry according to the main directions.* **Error! Bookmark not defined.**
- iii) *the number of excellent students;* **Error! Bookmark not defined.**
- iv) *the number of unregistered or transfered students accompanied with information on the institution and first study program and the study program they are transfered;..* **Error! Bookmark not defined.**

v) the number of students who got scholarship and the number of students who have obtained scholarships and the number of those who have benefited from the exclusion or reduction of tuition fees;	Error! Bookmark not defined.
vi) students participation in international cooperation projects and support for their mobility	85
vii) the percentage of passing students per year and the percentage of those who are graduated.....	85
viii) a general assessment on the student's quality and their evaluation for each cycle and study program	85
B. Administration Board:	86
a. General data on HEI related to general organisational structure of the higher education institution, composition units and the respective leading authorities, etj.	86
b. Data on mid-term budget plan, annual budget plan and strategic institution development plan	Error! Bookmark not defined.
c. Factual realisation of budget plan of previous year budget according to budget items, previous academic year budget plan, as well as the study fee for the following academic year	Error! Bookmark not defined.
d. Documentation of payment of tax liabilities, as well as social and health insurance	Error! Bookmark not defined.
e. Data on mobility of academic staff funded by HEIs or realized within international projects.....	Error! Bookmark not defined.
f. Data on the completion of state and academic standards, in line with the Quality Code, including changes in didactic environments, research, fundraising policies in function of quality improvement, number of textbooks and information infrastructures in function of learning, in cooperation with the Academic Senate of the Higher Education Institution	Error! Bookmark not defined.

A. Academic Staff

- a. Information on achieving teaching, scientific and creating and innovative activity purposes and objectives. The teaching, learning as well as scientific assessment reports. The report specifies responsible structures and the respective deadlines for such realisation with long-term and short-term strategic reference plan of HEI

In support to Strategic Plan 2017-2022 in Albanian University, the main teaching aims and objectives are achieved with high quality, starting even from the main units reports. It is worked continuously in order to improve the quality in teaching, also thanks to continuous trainings realised with the academic staff with a focus on contemporary teaching methods, curricula based on competencies etc. All the study program curricula are revised with the purpose to improve, adapt to the latest information on trade market, respecting the legal acts in power. (refer to Table 25)

- b. Information on inter-institutional collaboration and projects in which HEI participates, in which are presented data on the collaborating institution or project; on the contract, date and formalising the collaboration form or project; collaboration field; the parties duties and products, results or benefits expected from this collaboration.

Applied Projects

Table 1

N	Application Dt.	PROJECT TITLE	CALL	DON OR	APPLYING INSTITUTION	STATUS	PROJECT DESCRIPTION
1	23/07/2018	Evaluation expert/ The selection of projects applied in European union. Field: Communication and/or public relation work	Routes4U Project	EU	Albanian University, Faculty of Social Sciences, Department of Education and English. Stage of project: individual application; Dr Ndrizim Mehmeti	Evaluation process	The candidate is automatically part of evaluation experts database; in waiting the response that an applied project requests the candidate expertise.
2	20/07/2018	Evaluation expert/ The selection of projects applied in European Union. Field: Regional development and/or sustainable growth	Routes4U Project	EU	Albanian University, Faculty of Applied and Economic, Department of Economic Sciences. Project Staff: Individual application Prof. As. Dr. Manuela Mece	Evaluation process	The candidate is automatically part of evaluation experts database; in waiting the response that an applied project requests the candidate expertise.
3	19/07/2018	Evaluation expert for the selection of projects applied in European union. Field: Regional development and/or sustainable growth	Routes4U Project	EU	Albanian University, Faculty of Applied Sciences and Economics, Department of Economic Sciences. Project Staff: Individual application; MSc. Marsela Tafa	Evaluation process	The candidate is automatically part of evaluation experts database; awaiting the response that an applied project requests the candidate expertise.
4	25/07	Health Sciences	MSCA-IF	H202	Albanian University.	Project	The project aims to involve the

- c. Information on HEI scientific research or on projects in which it participates as an active party which include:
- i) Scientific research policies

Albanian University Policies in the field of scientific study, research are in the function of Albanian University's mission and of economic and social development of the country. It is complex and aims at:

- Determine the objectives, directions and priorities of scientific and development activity by trying to respond to Albanian University study programs, market needs and needs of our society;
- Formulate the tasks for the activation and qualification of the academic staff of the scientific researchers participating in the Scientific Research activity in Albanian University;
- rely on the legal basis;
- Provide logistics, financial and institutional base in the field of science.

Scientific research at Albanian University is oriented:

- **First**, in the function of teaching. Research and development activity aims at increasing the quality of education and should ensure the integration of research with learning. It should give students methodological research skills, give them continuous opportunities in completing teaching disciplines with advanced scientific and practical knowledge, improve the qualifications of Albanian University academic staff, and create material for development and work at the institution etc.
- **Secondly**, in matching the university offer with labor market needs. Albanian University must carry out basic research or applied research, studies and development projects, other creative activities in the manner set out in the Albanian University Statute, according to the specific objectives of the institution in these directions.
- **Thirdly**, according to agreements with third parties, Albanian University should also provide third parties with various qualified services such as expertise, analysis, counseling, monitoring, clinical services, etc., which are governed by its statute and regulations.

Strategic objectives

Strategic Objective I: Promote and raise academic staff and students to develop their scientific research.

To achieve this goal, "Albanian University" has placed the department at the center of research and study work. The Department includes related study areas by coordinating them with teaching activity. The Department defines the areas of study priority, extending them then to the faculty level and beyond. The Department also serves as a core for inclusion of students at all levels in research.

duties:

- Decides on the direction of scientific research and the priority for absorbing funds for this purpose;
- Creates opportunities for publishing and making these studies public in the national media;

- Increases contacts with high-level students to include them in research.

Success Indicators:

- Academic staff and students are aware that within the university a culture is being developed and institutionalized which supports research, creation and scientific initiative;
- The University establishes agreements with private and state institutions or organizations, both within and outside the country, for the organization of joint research and scientific programs.
- The University recognizes the right of full-time lecturers to develop their professional career and to abandon their direct teaching at a certain point in time to work on scientific research projects with concrete results resulting in publications, studies, research, leading authors in them with regional and national impact.

Strategic objective II: Serve raising the level of teaching and academic development at the University so that students and lecturers are promoters of a stimulating culture based on the principles of critical thinking.

Priorities:

- Defining roundtables, discussions and projects as an important part of curricula study, especially for second and third level students of the study.
- Forming students with communication skills, arguing and debating, in defense of their thesis, in the relevant branches of science.

Success Indicators:

- Participation in various academic activities such as conferences, workshops, studies by academic staff and students;
- Joint planning and application to various donors that support research projects, selection for projects and their realization.
- Publishing of study material, papers and study books as authors or even with participation in groups of authors.
- Referral of lecturers and studies conducted by them both by national media and as reference to other studies.

Strategic objective III: Contribute to the deepening of human knowledge and knowledge as well as their professional applications in the country.

Enable a theoretical and practical impact on society, the economy, medical sciences and further by transferring knowledge more developed than the internal academic community at the University.

Priorities:

- Through scientific research, priority is given to raising social dialogue among key actors in the different areas of development of the country;
- Are those areas of development to be prioritized where the country's research needs are greater;
- The application and implementation of the scientific research results are aimed at adapting to the country's conditions.

Success indicators:

- Linking industry or economy branches agreements with the University for practices, joint studies and joint use of laboratories in the widest sense of field study applications;
- Application of research applications and results in respective fields of study;
- Employing students in various branches where practices are implemented and applications implemented.

Strategic objective IV: In line with the aim of strengthening internationalization, project development and scientific research, the University works with universities and research centers in the region and in Europe to become part of consortiums for applying for scientific research projects, such as European Union funds "Horizon 2020", Erasmus + etc. The institution ensures compliance with research ethics.

Priorities:

- capacity building of academic and support staff for grant applications for scientific research development.

Success Indicators:

- Professional development, advancement in the academic career system in degrees and academic staff titles,
- Internationalization of the University, which translates into more opportunities for staff and students.

ii) Data on the relation of scientific research with teaching

Teaching at Albanian University is closely related to scientific research that is reflected in the realization of studies or research projects by academic staff. The study results become a subject of discussions during the auditorium with the students in order to motivate students to get closer to the research, as well as to develop course assignments where students develop their skills on methodologies within the research. Also during the academic year are organized student scientific conferences, where the students present the results of the scientific work realized with the support of the academic staff.

iii) products in the field of scientific research presented in the form of scientific publications, articles, projects acquired and realized, participation in activities within and outside the country, scientific activities organized by the base unit, cooperation with other institutions at the local level, national or international, accompanied by data on the date, place and participant

The University, in order to carry out the academic publications in Albanian of the authors of domestic or foreign academics, also operates the publishing house, AU Press. For the academic year 2017-2018 a text has been published in the field of Social Sciences.

Special attention was devoted to the Optima Scientific Magazine, Albanian University magazine, created in 2010 and which continues to be a window for the publication of the

works of the Albanian University academic staff but also from other universities in and outside the country.

For the academic year 2017-2018 the following two numbers December 2017 and June 2018 are published respectively:

December 2017- 5 works in the field of Medical Sciences, 5 works in the field of Social Sciences and 5 works in the field of Applied and Economic Sciences.

June 2018- 9 works in the field of medical sciences, 5 works in the field of social sciences and 4 papers in the field of Applied and Economic Sciences.

Collaboration agreement for year 2017-2018

5. Premises in the road Tirana- Elbasan, Km 5, Lundër ** (former American University of Tirana)	10000	18	26	23	N/A
Total surface in m2	20,718				

Note:

* Nr. total books 3titles in the library, does not include copies, and does not include titles in the online library.

** The premises in Tirana - Elbasan (formerly UAT) is not yet in use by "Albanian University" as the hosting capacities of the academic years 2016-2017 and 2017-2018 are covered by the existing buildings. If it is necessary to use it for the academic year 2018-2019, then the respective registration procedures will be made at the NRC.

Laboratories are reflected as follows at Key Unit level:

➤ **Faculty of Medical Sciences**

- Laboratory of Analytical Chemistry 1;
- Laboratory of Analytical Chemistry 2;
- Laboratory of Pharmaceutical Technology ;
- Laboratory of Inorganic General Chemistry;
- Laboratory of Pharmaceutical Chemistry;
- Laboratory of Pharmacognosy;
- Preparatory for Pharmaceutical Technology and Pharmacognosy;
- Preparatory Professor of Pharmaceutical Chemistry, Toxicology Chemistry and Instrumental Analysis Methods;
- Room of Appliances;
- Toxicological Chemistry Laboratory and Instrumental Analysis Methods;
- Laboratory of Anatomy I;
- Laboratory of Anatomy II;
- Laboratory of Physics;
- University Clinic;
- Laboratory of Preclinic Practice 1;
- Laboratory of Preclinic Practice 2;
- Laboratory of Prosthetics;
- Laboratory of Nursing;
- Laborator of Physiotherapy;

The University of Dentistry of Albanian University is an important infrastructure located on the Durrës street; it consists of 77 dental chairs, available to dentistry students for conducting lessons. It is equipped with modern technology and has a qualified staff that helps the teaching process. Part of the University Dental Clinic:

- • therapy room (dentist and endodontic);
- • pedodontic room for treating 3-16 year olds
- • Orthodontic hall;
- • Fixed and mobile prosthetic room together with the student lab;
- • ambulatory surgery room;
- • Periodontology room and mucosal diseases;
- • imaging department;
- • DayHospital, 24-hour hospitalization room.

➤ **Faculty of Applied Sciences and Economic**

- Laboratories of Informatics 1 - 2 (Simulations);
- Network Infrastructure Laboratory;

- Physics Laboratory;
- Chemistry Laboratory;
- Electrotechnical Laboratory;
- Analog Electronics Laboratory \ Digital Electronics Laboratory;
- Electrical and Electronic Measurement Laboratory;
- Automation and Control Laboratory (and Mechatronics);
- Electric Car Laboratory.

Faculty of Social Sciences

- Figurative Education Laboratory;
- Music Laboratory;
- Informatics and English Lab.

ANNUAL REPORT ACADEMIC YEAR 2017-2018

d. Data on study program

- i) HEL informs on all the provided study programs, including the interdisciplinary and joint ones, if any. In the report are shown the study programs which are active, suspended, closed, on which it is granted permission for its opening, but it is not activated.

Bsc. Marketing - Order no. 111, dt. 18.03.2015

Mp. Commercial law - Order no. 111, dt. 18.03.2015

Msc. Communication Sciences - Order no. 111, dt. 18.03.2015

ii) HEI informs on obtaining a permit for the opening of the study program that is under evaluation, as well as for programs offering continuous training for the third or professional development of their staff. These data are associated with the number and date of the act of opening, suspending or closing the study program

Albanian University has applied to the MES for the opening of 3 programs of second cycle study, professional master with 60 ECTS, duration of one academic year, namely:

- Interior Design - by letter no. 235 Prot, dt. 07/25/2018

- Manual Therapy - by letter no. 225 Prot., 17.07.2018

- Energy Systems - by letter no. 176 Prot., 28.05.2018

Pending release of the MES order.

ii) The HEI reflects in the annual report the suitability of the study programs with the institution's mission, the achievement of the study program's goals by the content and the relevance of the relevance of the study programs based on the assessment of skills needs in the labor market

The study programs offered at AU are best suited to the University's mission of transmitting and developing knowledge to prepare citizens to adapt to the contemporary world. Every academic year, the curriculum review of study programs is carried out, in order to be always in touch with the news and demands of the labor market and the internationalization of study programs.

e. Changes in the statute or regulations of the HEI, as well as data on the Internal Quality Assurance Unit.

In Albanian University, the Internal Quality Assurance System operates from 2009 -2010. Since then, the University to institutionalize the Internal Quality Assurance System, by Senate Academic Decision no. 178 dt. 23/07/2010, has established the Internal Quality Assurance Unit, and in accordance with Law 80/15 with Decision Nr. 4 of the Academic Senate dt. 22/12/2016 has also established the Permanent Commission for Institutional Assessment, which drafts quality assurance policies in accordance with the Higher Education Law and State Quality Standards. By Senate Academic Decision no. 157/3 Prot., Dt. 08.09.2016 are also set up quality assurance departments at departmental level.

e. Prediction for the engagement of the academic staff, the respective workload, subjects, and / or module (s) to be developed by each of them for each semester of the academic year

AU has announced Vacancy Announcements on the Web site and is now in the interviewing phase of the applicants. As soon as the recruitment period is completed, the teaching loads planned for the next academic year will be sent.

e. Trace data for students who have completed the studies for each study program offered by HEIs, accompanied with the source of information and the address where the information is confirmed, specifying:

i) the percentage of employment of graduates if the institution declares that the programs offered prepare for a particular career or occupation;

Students are represented in the governing bodies of Albanian University, in teaching and research structures and services. The institution encourages student participation in decision-making, free organization, and expression of their opinion.

Among the main structures we can mention:

- *Academic Senate* - has 1 students representative, Head of Student Council of AU - Marko Çuka october - december 2017
Maris Basha - january 2018 ongoing
- *Committee on Curricula and Teaching*, 1 representative selected by the Student Council. Arsentia Sulejmani
- *Scientific Research and Publishing Committee*, 1 representative selected by the Student Council. Fjodor Davidhi
- *Committee on Institutional Evaluation*, 1 representative selected by the Student Council. Bledar Lleshi

i. HEI assessments and possible recommendations for the ministry, as well as a description of the interaction of HEIs with ministry dependency structures, including:
i) an overall communication assessment with the ministry and its subordinate institutions, highlighting possible improvements in this communication;
ii) assessments and recommendations for system changes or legal and sub legal acts in force that affect the HEI's activity, accompanied by detailed justifications.

During this academic year, Albanian University has had a two-way and very correct communication with MASR, ASCAL and other structures under its authority. Albanian University has successfully passed the institutional accreditation by ASCAL in cooperation with the UK Quality Assurance Agency QAA, expressed by the Decision of the Accreditation Board no. 90, dt. 20/10/2017. During this academic year, AU has also been subject to the process of re-accreditation of several study programs, for which it has received positive evaluations and is awaiting for the conduct of visits to the institution according to the agendas set by ASCAL. It is worth mentioning that throughout this period of communication with ASCAL through the online AMS management system has been very useful for receiving and delivering information in real time.*j. Data on the students such as:*

i) the total number of registered and graduated students according to study levels and programs;

ii) the number of students attending programs that are a national priority set out in the priority document approved and published annually by the ministry according to the main directions.

iii) the number of excellent students;

iv) the number of students derecognised or transferred accompanied by information on the institution and the program of the first study and the study program where they are transferred;

v) the number of students who have obtained scholarships and the number of those who have benefited from the exclusion or reduction of tuition fees;

* There is still no sub-legal act that defines the programs that make up the national priority

38

*** In cases where the pass rate is greater than 100%, graduate students belong to previous generations, who have completed attendance but have had the obligation of diploma defense.

vi) participation of students in international cooperation projects and support to their mobility

In the framework of the Erasmus + 2017 agreement with the University of Salerno, three students from the Department of Engineering, Bachelor, and 2 students from Bsc. Information Technology and 1 from the Computer Engineering Program have benefited mobility.

From the Department of Economic Sciences, within the framework of the cooperation agreement with Powislanski College in Poland, a student of the Bsc program has benefited from mobility in Bsc Bank Finance.

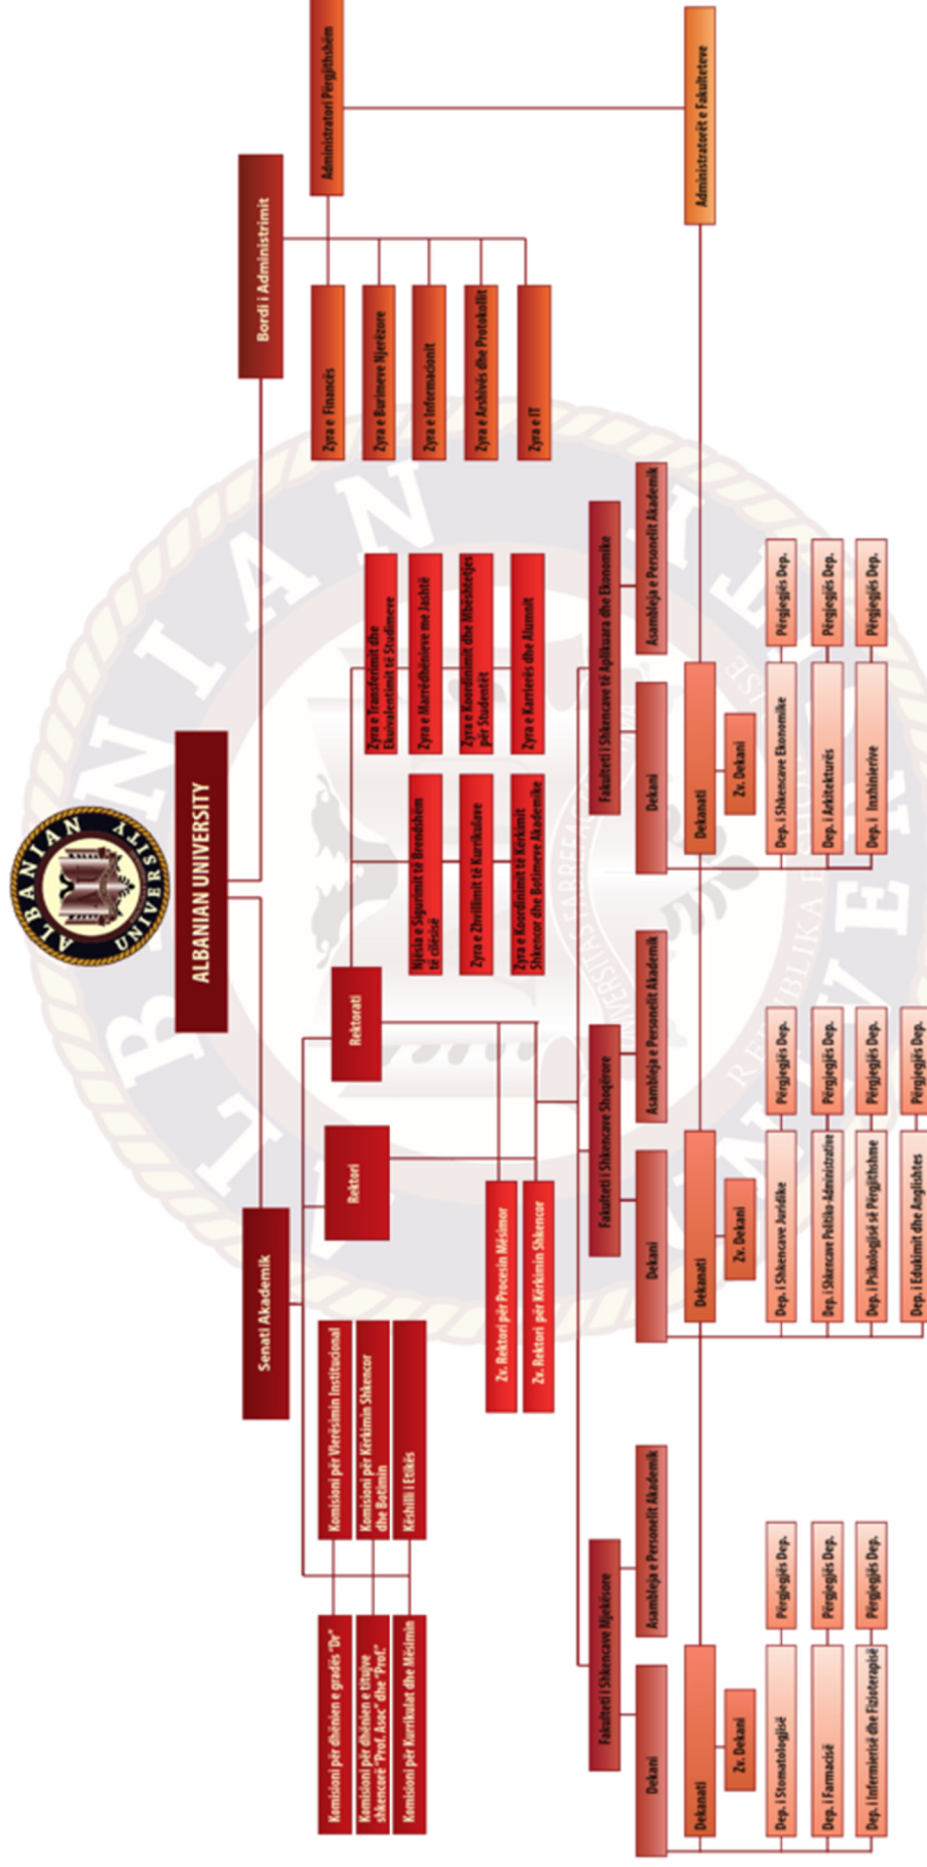

vii) the percentage of passing students per year and the percentage of those who graduate (Refer to Table 30)

viii) an overall assessment of student quality and their assessment of each cycle and study program

(Refer to Table 30)

B. Administration Board:

- a. *HEI General Data concerning the general organizational structure of the higher education institution, its composing units and the respective directing authorities, etc.*

<https://albanianuniversity.edu.al/sq/struktura-institucionale/>

b. Data on the medium-term budget plan, one year budget plan and strategic development plan of the institution

The data for this point is attached to this report on Evidence no. 1 and Evidence no. 2

c. Actual realization of the budget plan of the previous budget year according to budget items, budget plan of the academic year following, as well as tuition fees for the following academic year

The data for this point is attached to this report on Evidence no. 3 and Evidence no. 4

d. Documentation of payment of tax liabilities, as well as social and health insurance

The data for this point is attached to this report on Evidence nr. 5

d. Data on mobility of academic staff funded by HEIs or realized within international projects

For the academic year 2017-2018 have benefited mobility within the framework of cooperation agreements and projects the following lecturers:

Dr. Lekë Pepkolaj - Department of Engineering (in University of Salerno, in the framework of Erasmus +2017 project)

Dr. Genta Rexha - Department of Engineering (Visiting Professor in Università della Campania, Italy)

Dr. Erda Qorri - Department of Dentistry - University of Naples, Federico II

Dr. Bergin Gjonaj- International Project "Hyposense" 2016-2019, Israel

Dr. Laura Shumka - Department of Architecture - Selcuk University, Konya, Turkey

Dr. Genta Rexha - Department of Engineering - Projekti Gradua

Dr. Gilberta Hadaj - Department of Education and English- Project Gradua

Prof. As. Manuela Meçe - Department of Economic Sciences -Gradua Project

Msc. Aida Veliaj - Department of Economic Sciences - Gradua Project

d. Data on the completion of state and academic standards, in line with the Quality Code, including changes in didactic environments, research, fundraising policies in function of quality improvement, number of textbooks and information infrastructures in function of learning, in cooperation with the Academic Senate of the Higher Education Institution

In complement to state academic and infrastructural standards in accordance with the quality code, the Academic Senate of AU, in cooperation with the Administrative Board, has implemented genuine policies on the allocation of funds in order to improve quality.

Specifically, IT infrastructure has been improved (every AU auditor is equipped with audio and video projectors), the library is enriched according to changing needs for each study program

(see Table 24). Albanian University has the focus of its activity, continuous improvement of quality in every initiative undertaken.
